

October 2025

The Honorable Donald J. Trump
President of the United States
The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500

Dear President Trump,

We write to you as American families who have been lovingly waiting to welcome our children home from China. These are children who've already been matched with U.S. families – children who long for the safety and permanency of a loving family. **Their rooms are ready, their siblings wait eagerly, and their parents pray daily for the moment they will finally be united.**

We believe that **you** can help make that moment a reality. When you and President Xi meet later this month, we respectfully ask that you raise the issue of pending intercountry adoptions and urge China to allow these adoptions to be finalized. Your leadership could unite hundreds of children with their forever families. This would be an act of compassion that transcends politics and strengthens the bonds between our two nations.

You've led with moral clarity and American strength to bring home Israel's hostages and raise the issue of Ukraine's vulnerable children with President Putin. We are grateful for your strong leadership.

Mr. President, we know you will be overjoyed when you see these children running into their parents' arms – a joyful picture of love, family, and hope fulfilled.

Over five years have passed, and these precious children still wait for the opportunity to know the love and safety of a forever family.

Thank you for your continued commitment to American families and children around the world. We are grateful for your attention to this matter and hopeful that your work will help bring our children home at last.

With deepest gratitude,

Brittany Frisbie
